

Dear Children,

Good morning! We all enjoyed the sunshine yesterday, it was nice to feel the weather getting a bit warmer again. Nursery is now finished and it looks amazing! Here are some pictures - we still have to put the things back in:

We have loved hearing about how you are getting on with the daily challenges - you have been amazing! In my house, there seems to be a daily challenge everyday; yesterday, Olly had been practising catching grapes and hula hoops in his mouth and Anna was practising throwing her basketball into the laundry basket, which she had put in the garden, from her bedroom window! I wouldn't recommend trying either of these, and certainly not without your grown ups! Have you been doing any fun challenges in your house, or with your family? We have a new one for you today - see below!

Happy Birthday to Kitt! We hope you have a lovely day!

Our thought for today is: You are the stardust in our lives.

Today's challenge: The water bottle flip challenge - There is a video showing how here: https://www.youtube.com/watch?v=M65eQ2k_Iiw
If you can already do this, can you do any other tricks?

Song for today: Love my Life - here is a sing along version to join in with: <https://www.youtube.com/watch?v=v7YVEUhEW2w>

I cannot wait to see you again!
Love from Mrs Pollard xx

Read on for messages from your teachers ...

Hello Nursery,

Have a careful look at these pictures. What can you see?

Did you spot the hidden numbers? What numbers can you see?

Perhaps you could have a go at making a hidden number picture and see if your family can spot the ones you have hidden.

Did you enjoy the music you listened to last week? What's your favourite song to dance to? What kind of music do you think Gerald likes to dance to? Could you put your favourite music on and make up a dance for Gerald to do? What different moves can you include? Put your moves together and try to keep in time with the music. Keep practising. Can you do a show for your family?

If you've got your paddling pool out in the garden this week I hope you're enjoying splashing in it. What happens if you add bubble bath or washing up liquid? How many bubbles can you splash in the water?

Can you give your toys a bath?

What about getting a selection of balls and playing with them in the pool. Which makes a big splash? Do some float or sink? Which spins on the water or is most slippery? Try playing catch with wet balls!

Find a few plastic containers (yogurt pots, empty milk containers, plastic cups etc) and fill and empty them with the water. See who can pour from one container to another; see how many little pots fill a bog pot etc. You could even clean out some old flower pots and use them to play in the water. Find big

ones and small ones. Put them inside each other; make a tower and fill them with water to see how it pours out through the holes. It's like a shower!

Good morning Reception,

I hope you enjoyed your first day of Tangram puzzles yesterday.

I thought you might enjoy a fun drawing challenge today.

Can you have a go at the Arts hub 'How to draw' on You tube? Learn to draw everything from a Unicorn, flowers, superheroes, Pokémon, give it a go and send your art work pictures to the Reception google classroom.

<https://www.youtube.com/user/ArtforKidsHub/videos?app=desktop>

This was my Sonic the hedgehog drawing - I'm sure you can do much better than me. I had to keep pausing the video so that I could copy all of the lines properly! I can't wait to see the pictures you manage to draw.

Have a terrific Tuesday.

Love Mrs Pyle x

Dear Year 1,

I hope you're all well.

First, I know I promised you a video of my epic violin playing. Strangely enough the violin has gone missing. I have asked my daughters if they know what has happened to it, but they just giggle and say they have no idea. I'm not sure, so I am hunting for it.

Well Miss Bass and I are terribly excited that we may be back together with you soon. We have been thinking about what fun things we can do and we are tidying up our rooms this week.

Back to our raft. Hopefully you have survived and you sail to a tropical island. In your writing book can you tell me what you can see? What can you hear and smell? First thing to do is build a shelter out of plants and branches, draw me your design, then you need to find food and water.

Where would you find it?

Maths: Write in your home book, as many ways you can make the number 15. Remember you can add and take away.

Be good as always

Miss B and Mr M

Good morning children and welcome to another Tuesday!
You children are all doing SO well with your home learning!
I am very proud of you and just love seeing you on the
google stream with the things that you have been up to! We
have all turned into computer wizards!

Have you all been learning the new just dance song?

<https://www.youtube.com/watch?v=M8SIxE-MCFY>

We can all dance to it together! It will be so much fun!

I hope you are all keeping up with your reading and reading lots of
different and interesting books from home!

I am looking forward to seeing you all on Friday again! Same place and same
time!

So I had better let you get on with your learning
now hadn't I?

Ooh just before you go!!!

What is brown and hairy and wears glasses?

A coconut on holiday..... That was a good one wasn't it?!

Good-Bye.....birds eye..... (fish fingers)

Keep Smiling! Love Miss Grainger x

Good morning Year 3,

I hope you are all well and enjoying your learning and the sunshine.

Mrs B's class has a hangout today at 12.15. I am looking forward to you sharing
your creative art/music work from Friday and some of your missing words from
this mornings literacy. Unfortunately Miss Wood can't do her hangout today,
but is looking forward to seeing you again soon!

This week we are learning to do the grid method in maths. This can be really
tricky but I know you can do it! I hope the little videos I made are helpful. I
don't think a career as a youtube teacher beckons.

In literacy, we are thinking about darkness, figurative language and how to build
up tension in your writing. When you have done all the activities you will be

ready to continue writing the Diary of a Killer Cat story on Friday. Hopefully you will have quite a few sentences in the bank to start you off.

At the beginning of the week our topic work is about plants. Miss Roberts is going to teach you on the internet. I don't think she is as good as me - he he. She does talk for quite a while; you can pause her which you can't do to me in school! However what she actually teaches you is superb. I think you will enjoy learning about plants.

Let's finish with a joke - What kind of lights did Noah have in the ark?

sthgil doolf (backwards)

Mrs Broad and Mrs Wood

Happy Tuesday Year 4.

Sorry I was not in our hangout yesterday morning but I know you all had a good chat with Mrs. Henderson. We can make up for it today - I shall be in our classroom, as I am in school again.

Happy Birthday Kitt. We hope you enjoy your day today. Another of our class turning 9.

Don't forget tomorrow afternoon is our sharing hangout and it would be great to see all of you there with a favourite piece of work that you have produced this half term. Please try and encourage everyone to join together.

See you tomorrow.

Lots of love,

Mrs Mesher xxx

Dear Year 5

Mrs Crunden has written another message to us all!

Hello Year 5!

Mrs Crunden reporting in from a slightly chilly Welwyn. I hope everyone is really well and happy. I've just watched Mel's dance video and it was great. I can't believe how co-ordinated you all are! It looks like a lot of work went into learning the steps!

I hope home schooling is still going well. I'm missing marking all your lovely spellings - please keep them coming in to Mrs Gloyn otherwise she'll have me out on my bike to collect them from you. I'm only joking!

Life is good in the Crunden household; the dog has never had so much exercise and I've never eaten so many sweet things thanks to Harriet's food teacher setting lots of baking tasks. Have you been helping your parents to cook during

the lockdown? I hope you're able to wash up too - my son finds this task very tricky.

Signing out for now but hoping to see you all very soon. Love from Mrs C xx

Have a lovely day

Mrs Gloyn

Dear Year 6,

Once again you have brightened my day seeing you all yesterday morning.

We will be starting a new science topic- The Circulatory System - this week which will carry on in to next half term. The first lesson was about the Human heart so I hope you learnt some facts about that and I can ask you some questions about it in our quiz on Thursday.

We will also finish off our history topic on the Vikings in Britain this week and look at how England was established. That might appear as a question too.

Lesser known fact -Day 14 Anne Boleyn

On this day, in 1536, Anne Boleyn, the second wife of English king Henry VIII, was beheaded at the Tower of London on charges of adultery, incest and treason. Henry's marriage to Anne lasted three years and is regarded as a major turning point in British history. When the Catholic Church refused to annul his first marriage to Catherine of Aragon, Henry broke off relations with the Pope and established the independent Church of England.

Mr B X

Dear Year 6,

It was great to see so many of you this morning on 'hangout'. You all seem to be doing amazingly with your work and I am really looking forward to reading your stories, which I gather have been some of the best in years. Well done!

I have been putting some work together on the Vikings and have read their crimes and punishments. Wow! If you think life can be harsh now, thank heavens we don't live in Viking times. It would be terrible to be accused of laying a curse and being a witch and then being hanged...

I am aware that this could be the last week of lockdown in schools and that Year 6 will be privileged in being able to return to school... Fantastic news! It

might seem a little strange, but I guess we are getting used to this unwelcome strangeness.

Keep smiling you fabulous lot!

Love Mrs Abes xx

Hi All,

The last week of term, how have you been feeling? I am feeling better this week now the weather is getting warmer, we played some rounders' on the field and lots of stretching (we have not been doing as much as this as we should have!!!) Have you been doing your stretches? The Interhouse challenge is still on for all year groups!!!! All you have to do is email me a picture of you completing the splits - it does not matter how bad or good they are, you can earn more points if more people or pets are having a go as well!! Email me the picture on mdoran@codicoteprimary.com The pictures I have received so far have been brilliant, keep them coming !!

I hope I can see you all soon

Stay fit and healthy

Mel xx
